- Top 5 Export Goods: Electrical Machinery, Industrial Machinery, Knit, Furniture, Precision Instruments, Non Kite
- Top 5 Imports Goods: Electrical Machinery, Oil & Mineral fuels, Industrial Machinery, Ores, Precision Instruments

Japan

Economic Weaknesses

- No Economic Freedom in China
- GDP PPP is high, but GDP per Capital is low
- Corruption is high

Recommendation

- China should distribute money equally to everyone and increase the GDP per capital. Although China exports goods to most of the country, China needs to improve stander of living. Also, people should have more economic and political freedom.

Executive Summary

- I learned China's economy is growing fast, and it's the second richest country in the world. China exports more goods than other countries. In China, most of the people have jobs but there is corruption in the government.
