# Instruction

- ▶ Future is unknown and full of many expectation. We never know what tomorrow is going to be look like, so we imagine and expect good thing to happen. This is my imagine life after 30 years when I am 47 years old.

# Long Time Career Goal

- ▶ I want to be a medical doctor in the future because my Dad is a doctor, I admire his job and I want to be just like my Dad. He is my role model. I will make around \$185,000 per year, \$15,000 per month.

# Long Term House

- ▶ Buy a house in Boston, MA
- ▶ 48 Atwill Rd, Boston, MA  
02132
- ▶ 4 beds 2.5 baths 2,200 sqft
- ▶ For Sale:\$939,000
- ▶ Down payment 20%: 187,800
- ▶ Monthly payment for 15  
Year:\$5,208/month

# Long Term Goals #3

- ▶ My parents are most important to me. They spend their life and energy to educate me and provided everything I need. I will pay all of the expenses and travel around the world with my family. I will take care of them like they took care of me when I was little.

# Long Term Goals #4

- ▶ I will buy all of my dreams cars and have a car show. As a young teenagers, I always want to drive different type of cars for different events.

# Long Term Goals #5

- ▶ I will buy stock and invest more money. When I get rich, I will built my own hospital, hire intelligent immigrants, give them good salary , and manage my own schedule.

# Summary of Long Term Goals

- ▶ I am planning to save money every month from my salary. I will manage my money well and spend it well. I will buy better house after couple years of working. I will open my own hospital when I get older. These are just a imagination goals, but I will try hard to save money and keep a budget in real life.

# Accomplish Long Term Goals

- ▶ I will study hard and get a scholarship for collage. Than I will get student loan for medical university. I don't want to depend on my parents after 4 year collage. I will become a medical doctor just like my dad.
